Comprehensive Environmental Inc. (CEI)
is pleased to announce that

Michael P. Ohl, P.E.

has joined our senior staff.

CEI offers a wide range of engineering and design services that include water supply, wastewater, stormwater, hazardous waste, parks and recreational designs and construction inspection. CEI has been repeatedly recognized for its reliable and creative designs that minimize operations and maintenance costs and provide functional, attractive and environmentally beneficial projects that serve the client's needs first and foremost. CEI provides comprehensive, engineering services throughout New England from offices in Massachusetts and New Hampshire.

For more information regarding CEI's services, please contact Mr. Ohl on his mobile phone at 774-573-8973, through our toll free central line at (800) 725-2550, by email at mohl@ceiengineers.com or see CEI's website at www.ceiengineers.com.

Comprehensive Environmental Inc. (CEI)
is pleased to announce that
Michael P. Ohl, P.E.
has joined our senior staff.

Mr. Michael Ohl, P.E., has over two decades of varied water supply and water resources experience, specializing in groundwater and surface water supply, treatment and distribution. Mr. Ohl will be a valuable technical resource for CEI's existing multidisciplinary team of expert engineers and scientists. As a senior staff member, Mr. Ohl brings tremendous experience and versatility to the CEI team in planning, design and construction services for the installation and rehabilitation of water mains, storage tanks, gravel packed wells, pump stations and water treatment facilities. Additionally, he has had extensive involvement with water distribution modeling, water system master planning, rate studies, and pilot testing of treatment alternatives. Mr. Ohl has a B.S. in Civil Engineering from the State University of New York - Buffalo, an M.S. in Environmental Engineering from Worcester Polytechnic Institute and is a Registered Professional Engineer.

Mr. Ohl will join a team of senior level experts that include David Nyman, P.E., a 35 year expert in stormwater engineering and management; Richard Cote, P.E., LSP, a recognized hazardous waste expert with three decades of experience; John Vancor, P.E., a 24-year municipal public works civil engineer; and Eileen Pannetier, the firm's President and a nationally recognized water quality expert. These experts, along with a top team of staff engineers and scientists, are leaders in the field of environmental and civil engineering, providing exceptional services to public and private clients throughout New England. Mr. Ohl will immediately lead important stormwater and water supply engineering projects, working with CEI's existing highly trained engineering staff.
